

REPORT TO SHAREHOLDERS

Second quarter

Six-month period ended August 31, 2021

MANAGEMENT'S DISCUSSION AND ANALYSIS

Second quarter ended August 31, 2021

HIGHLIGHTS¹

- Sales for the quarter amounted to \$101.9 million, an increase of 33.6 million or 49.1% compared to the same quarter of the previous fiscal year. This quarter's sales level represents the highest volume in the last six quarters.
- Gross profit for the quarter of \$31.4 million, or 30.8%, an increase of \$14.3 million or 580 basis points from the same quarter of the previous year. The gross profit percentage of 29.1% for the first six-month of the fiscal year is the highest in recent history, a performance essentially driven by the improved sales volume, a more profitable product mix delivered, as well as the margin improvement activities undertaken over the past fiscal years within the scope of the V20 restructuring and transformation plan.
- Net income² of \$5.0 million and EBITDA³ of \$10.7 million for the quarter represent a significant improvement compared to last year's results. The better results are explained primarily by an increased gross profit, driven by an improved sales volume and product mix, despite notably lower Canada Emergency Wage Subsidies («CEWS»).
- Strong order backlog³ of \$575.8 million at the end of the quarter.
- Net new orders ("bookings")³ of \$81.6 million for the quarter, a decrease of \$19.7 million or 19.5% compared to the same quarter of the previous fiscal year. The Company's book-to-bill ratio of 0.80 for the quarter has a stronger relation to the improved sales volume rather than the softer quarter in terms of bookings. Nonetheless, the book-to-bill ratio for the six-month period stands at a positive 1.12.
- The Company's net cash amounted to \$68.1 million at the end of the quarter, an increase of \$5.2 million since the beginning of the fiscal year.

¹ All dollar amounts are denominated in U.S. dollars.² Net earnings or loss refer to net income or loss attributable to Subordinate and Multiple Voting Shares³ Non-IFRS and supplementary financial measures – additional specifications at the end of this report

Management's Discussion and Analysis

Second quarter ended August 31, 2021

The following discussion provides an analysis of the consolidated operating results and financial position of Velan Inc. ("the Company") for the quarter ended August 31, 2021, current as of October 7, 2021, the date of approval of this Management Discussion and Analysis ("MD&A") by the Board of Directors. This MD&A should be read in conjunction with the Company's audited consolidated financial statements for the years ended February 28, 2021 and February 29, 2020. The Company's consolidated financial statements have been prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board ("IFRS"). The significant accounting policies upon which these consolidated financial statements have been prepared are detailed in Note 2 of the Company's audited consolidated financial statements. All foreign currency transactions, balances and overseas operations have been converted to U.S. dollars, the Company's reporting currency. Additional information relating to the Company, including the Annual Information Form and Proxy Information Circular, can be found on SEDAR at www.sedar.com.

NON-IFRS AND SUPPLEMENTARY FINANCIAL MEASURES

In this MD&A, the Company has presented measures of performance or financial condition which are not defined under IFRS ("non-IFRS measures") and are, therefore, unlikely to be comparable to similar measures presented by other companies. These measures are used by management in assessing the operating results and financial condition of the Company and are reconciled with the performance measures defined under IFRS. Reconciliations of these amounts can be found at the end of this report. The Company has also presented supplementary financial measures which are defined at the end of this report.

FORWARD-LOOKING INFORMATION

This MD&A may include forward-looking statements, which generally contain words like "should", "believe", "anticipate", "plan", "may", "will", "expect", "intend", "continue" or "estimate" or the negatives of these terms or variations of them or similar expressions, all of which are subject to risks and uncertainties. These risks and uncertainties are disclosed in the Company's filings with the appropriate securities commissions. While these statements are based on management's assumptions regarding historical trends, current conditions and expected future developments, as well as other factors that it believes are reasonable and appropriate in the circumstances, no forward-looking statement can be guaranteed and actual future results may differ materially from those expressed herein. The Company disclaims any intention or obligation to update or revise any forward-looking statements contained herein whether as a result of new information, future events or otherwise, except as required by the applicable securities laws. The forward-looking statements contained in this report are expressly qualified by this cautionary statement.

ABOUT VELAN

The Company designs, manufactures and markets on a worldwide basis a broad range of industrial valves for use in most industry applications including power generation, oil and gas, refining and petrochemicals, chemicals, LNG and cryogenics, pulp and paper, geothermal processes and shipbuilding. The Company is a world leader in steel industrial valves operating 12 manufacturing plants worldwide with 1,699 employees. The Company's head office is located in Montreal, Canada. The Company's business strategy is to design, manufacture, and market new and innovative valves with emphasis on quality, safety, ease of operation, and long service life. The Company's strategic goals include, but are not limited to, customer-driven operational excellence and margin improvements, accelerated growth through increased focus on key target markets where the Company has distinct competitive advantages and continuously improving and modernizing its systems and processes.

The consolidated financial statements of the Company include the North American operations comprising two manufacturing plants in Canada, as well as one manufacturing plant and one distribution facility in the U.S. Significant overseas operations include manufacturing plants in France, Italy, Portugal, Korea, Taiwan, India, and China. The Company's operations also include a sales operation in Germany and a 50%-owned Korean foundry.

RESULTS OF OPERATIONS

(unless otherwise noted, all amounts are in U.S. dollars and all comparisons are to the second quarter of the last fiscal year)

(thousands)	Three-month periods ended			Six-month periods ended

Backlog²

(thousands)	As at		
	August 31, 2021	February 28, 2021	August 31, 2020
Backlog ²	575,826	562,458	462,696
For delivery within the next twelve months	346,586	338,458	289,389
For delivery beyond the next twelve months	229,240	224,035	173,307
Percentage – beyond the next twelve months	39.8%	39.8%	37.5%

As a result of bookings² outpacing sales in the current six-month period, the Company's book-to-bill ratio² was 1.12 for the period. Furthermore, the total backlog² increased by \$13.3 million or 2.4% since the beginning of the fiscal year, amounting to \$575.8 million as at August 31, 2021.

¹ Net earnings or loss refer to net income or loss attributable to Subordinate and Multiple Voting Shares

² Non-IFRS and supplementary financial measures – more information at the end of this report

Bookings¹

Bookings¹ amounted to \$81.6 million, a decrease of \$19.7 million or 19.5% for the quarter. This decrease is primarily attributable to lower large project orders recorded by the Company's French and North American operations. Bookings¹ amounted to \$197.9 million, an increase of \$19.9 million or 11.2% for the six-month period. The increase is primarily attributable to large project orders recorded by the Company's Italian and North American operations, notably in the marine and oil and gas markets. The increase is also attributable to higher MRO orders recorded by the Company's North American operations. The Company is encouraged by the recovery of its MRO order bookings, which were severely impacted by the global pandemic at the end of the prior fiscal year, and ultimately adversely affected the sales of its current fiscal year as explained in the next paragraph. The increase in bookings for the six-month period was partially offset by a reduction in large project orders recorded by the Company's French operations.

Sales

Sales amounted to \$101.9 million, an increase of \$33.6 million or 49.1% for the quarter. Sales amounted to \$176.4 million, an increase of \$31.4 million or 21.7% for the six-month period. Sales for both periods were positively impacted by the Company's North American operations increased large project orders shipments primarily destined for the petrochemical and power markets. For the quarter, sales were positively impacted by the shipment of previously delayed orders by the Company's Italian operations. The delays were due to various customer-related and global logistics factors. In terms of the six-month period, the Company's French operations were able to show an improved sales volume due to their strong performance in the first quarter of the current fiscal year. Finally, the Company's MRO sales for the six-month period were negatively affected by the persistent unfavorable market conditions triggered by the novel coronavirus ("COVID-19") global pandemic which has significantly affected the Company's distribution channels' bookings in the previous fiscal year. The lower distribution channels' bookings in the latter part of the prior year translated in lower shipments of such orders in the first quarter of the current year.

Gross profit

Gross profit amounted to \$31.4 million, an increase of \$14.3 million or 84.1% for the quarter. Gross profit amounted to \$51.4 million, an increase of \$15.9 million or 45.0% for the six-month period. The gross profit percentage for the quarter of 30.8% was an increase of 580 basis points compared to last year's second quarter, while the gross profit percentage for the first six-month period of 29.1% represented an increase of 470 basis points compared to the same period last year, and is also the highest in recent history. The improvement in gross profit percentage for both periods is primarily attributable to the higher sales volume, which helped to cover the Company's fixed production overhead costs more efficiently. The Company's improved margins are also stemming from the margin improvement activities implemented over the course of the past fiscal years within the scope of the V20 restructuring and transformation plan. Additionally, the Company's gross profit also benefited from favorable movements in unrealized foreign exchange translation primarily attributable to the fluctuation of the U.S. dollar against the euro and the Canadian dollar for the quarter and the six-month period when compared to the prior year. Finally, the increase in gross profit percentage was such that it could more than offset the impact of a lower amount of CEWS of \$1.7 million for the quarter and \$3.1 million for the six-month period compared to last year. The subsidies are allocated between cost of sales and administration costs.

¹ Non-IFRS and supplementary financial measures – more information at the end of this report

EBITDA¹

EBITDA¹ for the quarter amounted to \$10.7 million or \$0.49 per share compared to a negative \$2.5 million or \$0.12 per share last year. EBITDA¹ for the six-month period amounted to \$9.7 million or \$0.45 per share compared to \$0.1 million or \$0.01 per share in the prior period. The improvements in EBITDA¹ for both periods are primarily attributable to:

- An increase in gross profit by \$14.3 million, from 25.0% to 30.8% for the quarter and \$15.9 million, from 24.4% to 29.1% for the six-month period, primarily due to a higher sales volume, while reflecting the notably improved product mix and margins resulting from the Company's targeted efforts under V20, described earlier. The Company's gross profit also benefited from favorable movements in unrealized foreign exchange translation for the quarter and six-month period when compared to the prior year.
- The absence of restructuring and transformation costs in the current fiscal year which totaled \$1.7 million in the previous quarter and \$2.9 million in the previous six-month period; and
- A reduction in other expenses of \$1.4 million for the quarter and six-month period primarily due to land clean-up costs of a former factory incurred in the second quarter of the prior year.

On the other hand, these improvements were partially offset by an increase in administration costs of \$4.3 million or 21.8% for the quarter and \$10.4 million or 27.8% for the six-month period, primarily attributable to:

- A decrease of \$1.4 million for the quarter and \$2.5 million for the six-month period in CEWS received by the Company compared to last year. The subsidies are allocated between cost of sales and administration costs.
- An increase in sales commissions for both periods due to the higher sales volume.
- A general increase in administration expenses that had been significantly lowered when the global pandemic broke out last year; and
- An increase of \$1.4 million for the six-month period in the costs recognized in connection with the Company's ongoing asbestos litigation (see *Contingencies* section).

Income taxes

(thousands, excluding percentages)	Three-month periods ended			
	August 31, 2021		August 31, 2020

Other differences	16	0.6	54	(0.8)
Income tax expense	2,902	114.6	608	(9.3)

Net income (loss)¹

Net income¹ for the quarter amounted to \$5.0 million or \$0.23 per share compared to a net loss¹ of \$5.1 million or \$0.24 per share last year. Net loss¹ for the six-month period amounted to \$0.1 million or \$0.00 per share compared to a net loss¹ of \$7.0 million or \$0.32 per share in the prior period. The favorable movements in the Company's results were primarily attributable to the same factors as explained in the EBITDA² section coupled with an unfavorable movement in income taxes.

LIQUIDITY AND CAPITAL RESOURCES – a discussion of liquidity risk, credit facilities, cash flows and proposed transactions (unless otherwise noted, all dollar amounts are denominated in U.S. dollars)

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they come due. The Company manages its liquidity risk by continually monitoring its future cash requirements. Cash flow forecasting is performed in the operating entities and aggregated by the Company's corporate finance team. The Company's policy is to maintain sufficient cash and cash equivalents and available credit facilities in order to meet its present and future operational needs.

On August 31, 2021, the Company's order backlog² was \$575.8 million and its net cash, subject to certain local exchange control restrictions, plus unused credit facilities amounted to \$145.9 million, which it believes, along with future cash flows generated from operations, is sufficient to meet its financial obligations, increase its capacity, satisfy its working capital requirements, and execute on its business strategy. The Company also believes that its unused credit facilities are sufficient to overcome the remaining lingering effects of the COVID-19 pandemic on the world's economy. However, there can be no assurance that the risk of another sharp downturn in the economy will not materially adversely affect the Company's results of operations or financial condition. As at August 31, 2021, the Company is in compliance with all covenants related to its debt and credit facilities.

As part of managing its liquidity risk, the Company also monitors the financial health of its key suppliers.

¹ Net earnings or loss refer to net income or loss attributable to Subordinate and Multiple Voting Shares

² Non-IFRS and supplementary financial measures – more information at the end of this report

Cash flows - quarter and six-month period ended August 31, 2021

(unless otherwise noted, all amounts are in U.S. dollars and all comparisons are to same period in the prior fiscal year)

The Company's changes in net cash were as follows:

(thousands)	Three-month periods ended		Six-month periods ended	
	August 31, 2021	August 31, 2020	August 31, 2021	August 31, 2020
Net Cash – Beginning of period	71,237	44,640	62,953	31,010
Cash provided (used) by operating activities	1,533	(140)	2,428	19,103
Cash used by investing activities	(3,599)	(539)	(2,692)	(4,446)
Cash provided by financing activities	688	12,186	6,734	9,532
Effect of exchange rate differences on cash	(1,728)	4,218	(1,292)	5,166
Net Cash – End of period	68,131	60,365	68,131	60,365

Operating activities

The favorable movement in cash provided by operating activities for the quarter is primarily attributable to an improved EBITDA¹ partially offset by unfavorable changes in non-cash working capital items. The decrease in cash provided by operating activities for the six-month period is primarily attributable to unfavorable changes in non-cash working capital items partially offset by an improved EBITDA¹.

The negative non-cash working capital movements for the quarter ended August 31, 2021 consisted primarily of:

- An increase in inventories principally in reaction to the delivery schedule of certain large project orders.
- An increase in accounts receivable mainly due to the higher sales output for the quarter which occurred predominantly at the tail end of the quarter.
- An increase in accounts payable and accrued liabilities due to the timing of payments, especially related to inventory purchases.

The positive non-cash working capital movements for the quarter ended August 31, 2021 were primarily due to an increase in customer deposits collected on certain large project orders by the Company's Italian and French operations.

The negative non-cash working capital movements for the six-month period ended August 31, 2021 were mainly due to an increase in inventories required for the increase in bookings and backlog since the beginning of the fiscal year.

The positive non-cash working capital movements for the six-month period ended August 31, 2021 consisted principally of:

- A decrease in accounts receivable mainly due to increased collections of prior year account.
- A higher amount of customer deposits collected on certain large project orders by the Company's Italian, French and North American operations.
- An increase in accounts payable and accrued liabilities due to the timing of payments, especially related to inventory purchases.

¹ Non-IFRS and supplementary financial measures – more information at the end of this report

Investing activities

Cash used by investing activities for the quarter was primarily due to additions in property, plant and equipment and an increase in short-term investments.

Cash used by investing activities for the six-month period was primarily due to additions in property, plant and equipment and an increase in short-term investments, partially offset by proceeds on disposal of property, plant and equipment related to the sale of a vacant land that used to host a production plant of the Company. The plant's operations were fully transferred in fiscal 2017 to other plants, and the building was demolished.

The fluctuations in additions to property, plant and equipment for any period when compared to the prior year comparable period is due to the timing of the receipts of certain equipment.

Financing activities

During the course of the current quarter, while the Company continued to pay down its outstanding long-term debt, its North American operations borrowed \$5.9 million in the form of a secured mortgage loan bearing monthly interest payments of 3.80%, with principal payments beginning in October 2021 and repayable over 20 years.

During the second quarter of the previous year, the Company's North American operations borrowed \$10.9 million in the form of a secured mortgage loan bearing monthly interest payments of 3.80%, with principal payments beginning in October 2021 and repayable over 20 years. Additionally, its Italian subsidiary secured three new long-term debt issuances with two financial institutions as part of the measures and initiatives put in place by the Italian government to support companies during the pandemic. Specifically, the subsidiary borrowed \$3.4 million in the form of unsecured bank loans, bearing interest between 1.00% and 1.25%, with principal repayments beginning in 2021 and 2022 and repayable in monthly and quarterly installments, expiring in 2025 and 2026.

During the current quarter, the company reimbursed \$3.4 million of amounts previously drawn on its revolving credit facility, bringing the net withdrawn amount for the six-month period down to \$6.3 million.

FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

The Company's activities expose it to a variety of financial risks: market risk (including currency risk, cash flow interest rate risk and fair value interest rate risk), credit risk and liquidity risk. The Company's overall financial risk management program focuses on mitigating unpredictable financial market risks and their potential adverse effects on the Company's financial performance.

The Company's financial risk management is generally carried out by the corporate finance team, based on policies approved by the Board of Directors. The identification, evaluation and hedging of the financial risks are the responsibility of the corporate finance team in conjunction with the finance teams of the Company's subsidiaries. The Company uses derivative financial instruments to hedge certain risk exposures. Use of derivative financial instruments is subject to a policy which requires that no derivative transaction be entered into for the purpose of establishing a speculative or leveraged position (the corollary being that all derivative transactions are to be entered into for risk management purposes only).

Market risk

Currency risk

Currency risk on financial instruments is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company operates internationally and is exposed to foreign exchange risk arising from various currency exposures. Currency risk arises when future commercial

transactions and recognized assets and liabilities are denominated in a currency other than a company's functional currency. The Company has operations with different functional currencies, each of which will be exposed to currency risk based on its specific functional currency.

When possible, the Company matches cash receipts in a foreign currency with cash disbursements in that same currency. The remaining anticipated net exposure to foreign currencies is hedged. To hedge this exposure, the Company uses foreign currency derivatives, primarily foreign exchange forward contracts. These derivatives are not designated as hedges for accounting purposes.

The amounts outstanding as at August 31, 2021 and February 28, 2021 are as follows:

	Range of exchange rates		Gain (loss) (in thousands of U.S. dollars)		Notional amount (in thousands of indicated currency)	
	August 31, 2021	February 28, 2021	August 31, 2021 \$	February 28, 2021 \$	August 31, 2021	February 28, 2021
Foreign exchange forward contracts						
Sell US\$ for CA\$ - 0 to 12 months	1.28-1.30	1.30	(7)	(135)	US\$22,000	US\$22,000
Buy US\$ for CA\$ - 0 to 12 months	1.20-1.22	1.22	-	48	US\$22,000	US\$22,000
Sell € for US\$ – 0 to 12 months	1.22-1.24	1.22-1.24	-	(168)	€11,167	€18,363
Buy € for US\$ – 0 to 12 months	1.16-1.20	1.16-1.20	73	148	€11,167	€18,363
Buy US\$ for € – 0 to 12 months	1.18-1.21	-	-	-	US\$323	US\$-

Foreign exchange forward contracts are contracts whereby the Company has the obligation to sell or buy the currencies at the strike price. The fair value of the foreign currency instruments is recorded in the consolidated statement of income and reflects the estimated amounts the Company would have paid or received to settle these contracts as at the financial position date. Unrealized gains are recorded as derivative assets and unrealized losses as derivative liabilities on the consolidated statement of financial position.

Interest rate risk

The Company's exposure to interest rate risk is related primarily to its credit facilities, long-term debt and cash and cash equivalents. Items at variable rates expose the Company to cash flow interest rate risk, and items at fixed rates expose the Company to fair value interest rate risk. The Company's long-term debt and credit facilities predominantly bear interest, and its cash and cash equivalents earn interest at variable rates. An assumed 0.5% change in interest rates would have no significant impact on the Company's net income or cash flows.

Credit risk

Credit risk is the risk of an unexpected loss if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Credit risk arises primarily from the Company's trade accounts receivable.

The Company's credit risk related to its trade accounts receivable is concentrated. As at August 31, 2021, five (February 28, 2021 – five) customers accounted for more than 5% each of its trade accounts receivable, of which one customer accounted for 11.1% (February 28, 2021 – 15.6%), and the Company's ten largest customers accounted for 55.2% (February 28, 2021 – 63.5%) of trade accounts receivable. In addition, there was no customer (August 31, 2021 – one) that accounted for more than 10% of the Company's sales.

In order to mitigate its credit risk, the Company performs a continual evaluation of its customers' credit standing and performs specific evaluation procedures on all its new customers. In performing its evaluation, the Company analyzes the ageing of accounts receivable, historical payment patterns, customer creditworthiness and current economic trends. A specific credit limit is established for each customer and reviewed periodically. For some trade accounts receivable, the Company may obtain security in the form of credit insurance which can be called upon if the counterparty is in default under the terms of the agreement.

The Company applies the IFRS 9 simplified approach to measure expected credit losses using a lifetime expected credit loss allowance for trade receivables. The expected credit loss rates are based on the Company's historical credit losses experienced over the last fiscal year prior to period end. The historical rates are then adjusted for current and forward-looking information on macro-economic factors affecting the Company's customers.

The Company is also exposed to credit risk relating to derivative financial instruments, cash and cash equivalents and short-term investments, which it manages by dealing with highly rated financial institutions. The Company's primary credit risk is limited to the carrying value of the trade accounts receivable and gains on derivative assets.

The table below summarizes the ageing of the trade accounts receivable:

	As at	
	August 31, 2021 \$	February 28, 2021 \$
(thousands)		
Current	67,387	76,407
Past due 0 to 30 days	14,329	19,630
Past due 31 to 90 days	13,538	9,672
Past due more than 90 days	20,987	17,653
	116,241	123,362
Less: Loss allowance	(843)	(1,146)
	115,398	122,216
Other receivables	10,677	13,157
Total accounts receivable	126,075	135,373

The table below summarizes the movement in the allowance for doubtful accounts:

	Six-month periods ended	
	August 31, 2021 \$	August 31, 2020 \$
(thousands)		
Balance – Beginning of the year	1,146	2,002
Loss allowance expenses	58	2
Recoveries of trade accounts receivables	(275)	(122)
Write-off of trade accounts receivable	(8)	(212)
Foreign exchange	(78)	100
Balance – End of the period	843	1,770

Liquidity risk – see discussion in *liquidity and capital resources* section

CONTINGENCIES (in thousands of U.S. dollars, excluding number of cases)

Two of the Company's U.S. subsidiaries have been named as one of the defendants in a number of pending lawsuits that seek to recover damages for personal injury allegedly caused by exposure to asbestos-containing products manufactured and sold in the past. Management believes it has a strong defence related to certain products that may have contained an internal asbestos containing component. 1,973 claims were outstanding at the end of the reporting period (February 28, 2021 – 1,696). During the reporting period, the Company resolved 116 claims (August 31, 2020 – 175) and received 393 claims (August 31, 2020 – 253). Settlement costs and legal fees related to these asbestos claims amounted to \$2,454 (August 31, 2020 – \$3,171) for the quarter and \$6,647 (August 31, 2020 – \$5,217) for the six-month period.

INTERNAL CONTROLS AND PROCEDURES

In accordance with National Instrument 52-109 – Certification of Disclosure in Issuer's Annual and Interim Filings, disclosure controls and procedures have been designed to provide reasonable assurance that the information presented in the Company's interim and annual reports to shareholders is accumulated and communicated to management on a timely basis, including the Chief Executive Officer and the Chief Financial Officer, in order for appropriate decisions to be made in regards to disclosures. Internal controls over financial reporting have also been designed to provide reasonable assurance regarding the reliability of the financial reporting and the preparation of financial statements in accordance with IFRS.

The Company did not make any changes to the design of internal controls over financial reporting during the three-month and six-month periods ended August 31, 2021 that have materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.

CRITICAL ACCOUNTING ESTIMATES & JUDGEMENTS

The Company's financial statements are prepared in accordance with IFRS as issued by the IASB. The Company's significant accounting policies as described in notes 2 and 3 of the Company's audited consolidated financial statements are essential to understanding the Company's financial positions, results of operations and cash flows. Certain of these accounting policies require critical accounting estimates that involve complex and subjective judgments and the use of assumptions, some of which may be for matters that are inherently uncertain and susceptible to change. The assumptions and estimates used are based on parameters which are derived from the knowledge at the time of preparing the financial statements and believed to be reasonable under the circumstances. In particular, the circumstances prevailing at this time and assumptions as to the expected future development of the global and industry-specific environment were used to estimate the Company's future business performance. Where these conditions develop differently than assumed and beyond the control of the Company, the actual results may differ from those anticipated (see *Forward-looking information* section above). These estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is changed. There were no significant changes made to critical accounting estimates during the past two fiscal years.

There have been no material changes from those identified in the annual MD&A.

ACCOUNTING STANDARDS AND AMENDMENTS ADOPTED IN THE PERIOD

In August 2020, the International Accounting Standards Board (“IASB”) issued *Interest Rate Benchmark Reform (Phase 2)*, which amends *IFRS 9 Financial instruments*, *IAS 39 Financial instruments: Recognition and measurement*, *IFRS 7 Financial instruments: Disclosures* and *IFRS 16 Leases*. The Phase 2 amendments address issues that might affect financial reporting after the reform of an interest rate benchmark, including its replacement with alternative benchmark rates. These amendments complement those issued in 2019 and focus on issues that might affect financial reporting during the reform of an interest rate benchmark, including the effects of changes to contractual cash flows arising from the replacement of an interest rate benchmark with an alternative benchmark rate. This amendment was adopted effective March 1, 2021 and resulted in no material adjustments.

ACCOUNTING STANDARDS AND AMENDMENTS ISSUED BUT NOT YET ADOPTED

In January 2020, the International Accounting Standards Board (“IASB”) issued *Classification of Liabilities as Current or Non-current (Amendments to IAS 1)* providing a more general approach to the classification of liabilities under IAS 1 based on the contractual arrangements in place at the reporting date. The amendments in *Classification of Liabilities as Current or Non-current (Amendments to IAS 1)* affect only the presentation of liabilities in the statement of financial position, not the amount or timing of recognition of any asset, liability income or expenses, or the information that entities disclose about those items. In July 2020, the IASB published *Classification of Liabilities as Current or Non-current – Deferral of Effective Date (Amendment to IAS 1)* deferring the effective date of the January 2020 amendments to IAS 1 by one year. The amendments to IAS 1 are effective for annual reporting periods beginning on or after January 1, 2023 with earlier adoption permitted. The Company is currently evaluating the impact of these amendments on its financial statements.

SUMMARY OF QUARTERLY RESULTS

Summary financial data derived from the Company’s unaudited financial statements from each of the eight most recently completed quarters are as follows:

For the quarters ended in May, August, November and February
(in thousands of U.S. dollars, excluding per share amounts)

	QUARTERS ENDED							
	August 2021	May 2021	February 2021	November 2020	August 2020	May 2020	February 2020	November 2019
Sales	\$101,893	\$74,529	\$85,510	\$71,560	\$68,340	\$76,653	\$113,641	\$88,701
Net earnings (loss) ¹	5,015	(5,073)	338	9,527	(5,112)	(1,886)	(11,116)	(819)
Net earnings (loss) ¹ per share								
- Basic and diluted	0.23	(0.24)	0.02	0.44	(0.24)	(0.09)	(0.51)	(0.04)

¹ Net earnings or loss refer to net income or loss attributable to Subordinate and Multiple Voting Shares

NON-IFRS AND SUPPLEMENTARY FINANCIAL MEASURES

In this MD&A, the Company presented measures of performance or financial condition which are not defined under IFRS ("non-IFRS measures") and are, therefore, unlikely to be comparable to similar measures presented by other companies. These measures are used by management in assessing the operating results and financial condition of the Company and are reconciled with the performance measures defined under IFRS. Company has also presented supplementary financial measures which are defined at the end of this report. Reconciliation and definition can be found below.

Net earnings (loss) before interest, taxes, depreciation and amortization ("EBITDA")

	Three-month periods ended		Six-month periods ended	
	August 31, 2021 \$	August 31, 2020 \$	August 31, 2021 \$	August 31, 2020 \$
(thousands, except amount per shares)				
Net income (loss) ¹	5,015	(5,112)	(58)	(6,998)
<i>Adjustments for:</i>				
Depreciation of property, plant and equipment	2,394	2,450	4,808	4,975
Amortization of intangible assets	451	626	1,009	1,194
Finance costs – net	526	44	1,055	362
Income taxes	2,271	(505)	2,902	608
EBITDA	10,657	(2,497)	9,716	141
EBITDA per share				
- Basic and diluted	0.49	(0.12)	0.45	0.01

The term "EBITDA" is defined as net income or loss attributable to Subordinate and Multiple Voting Shares plus depreciation of property, plant & equipment, plus amortization of intangible assets, plus net finance costs plus income tax provision. The terms "EBITDA per share" is obtained by dividing EBITDA by the total amount of subordinate and multiple voting shares. The forward-looking statements contained in this MD&A are expressly qualified by this cautionary statement.

Definitions of supplementary financial measures

The term "Net new orders" or "bookings" is defined as firm orders, net of cancellations, recorded by the Company during a period. Bookings are impacted by the fluctuation of foreign exchange rates for a given period. The measure provides an indication of the Company's sales operation performance for a given period as well as an expectation of future sales and cash flows to be achieved on these orders.

The term "backlog" is defined as the buildup of all outstanding bookings to be delivered by the Company. The Company's backlog is impacted by the fluctuation of foreign exchange rates for a given period. The measure provides an indication of the future operational challenges of the Company as well as an expectation of future sales and cash flows to be achieved on these orders.

The term "book-to-bill" is obtained by dividing bookings by sales. The measure provides an indication of the Company's performance and outlook for a given period.

The forward-looking statements contained in this MD&A are expressly qualified by this cautionary statement.

¹ Net earnings or loss refer to net income or loss attributable to Subordinate and Multiple Voting Shares

**UNAUDITED CONDENSED INTERIM CONSOLIDATED
FINANCIAL STATEMENTS**

For the three-month and six-month periods ended August 31, 2021

NOTICE OF NO AUDITOR REVIEW OF CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

In accordance with National Instrument 51-102 released by the Canadian Securities Administrators, the Company discloses that its auditors PricewaterhouseCoopers LLP have not reviewed the unaudited condensed interim consolidated financial statements for the three-month and six-month periods ended August 31, 2021.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the three-month and six-month periods ended August 31, 2021

1 General information

These unaudited condensed interim financial statements represent the consolidation of the accounts of Velan Inc. (the “Company”) and its subsidiaries. The Company is an international manufacturer of industrial valves and is a public company listed on the Toronto Stock Exchange under the symbol “VLN”. It was incorporated under the name Velan Engineering Ltd. on December 12, 1952 and continued under the *Canada Business Corporations Act* on February 11, 1977. It changed its name to Velan Inc. on February 20, 1981. Velan Inc. maintains its registered head office at 7007 Cote de Liesse, Montreal, Quebec, Canada, H4T 1G2. The Company’s ultimate parent company is Velan Holdings Co. Ltd.

These unaudited condensed interim consolidated financial statements were approved for issue by the Company’s Board of Directors on October 7, 2021. The Company’s auditors have not performed a review of these unaudited condensed interim consolidated financial statements.

2 Basis of preparation

These unaudited condensed interim consolidated financial statements for the three-month and six-month periods ended August 31, 2021 have been prepared in accordance with International Financial Reporting Standards (“IFRS”) in accordance with International Accounting Standard (“IAS”) 34, *Interim Financial Reporting*. These unaudited condensed interim consolidated financial statements have been prepared using the same basis of presentation, accounting policies, and methods of computation as outlined in Note 2, *Summary of significant accounting policies*, in the Company’s annual consolidated financial statements for the year ended February 28, 2021, which have also been prepared in accordance with IFRS. Accordingly, these unaudited condensed interim consolidated financial statements should be read in conjunction with the Company’s annual consolidated financial statements for the year ended February 28, 2021.

3 Changes in accounting policies

In August 2020, the International Accounting Standards Board (“IASB”) issued *Interest Rate Benchmark Reform (Phase 2)*, which amends *IFRS 9 Financial instruments*, *IAS 39 Financial instruments: Recognition and measurement*, *IFRS 7 Financial instruments: Disclosures* and *IFRS 16 Leases*. The Phase 2 amendments address issues that might affect financial reporting after the reform of an interest rate benchmark, including its replacement with alternative benchmark rates. These amendments complement those issued in 2019 and focus on issues that might affect financial reporting during the reform of an interest rate benchmark, including the effects of changes to contractual cash flows arising from the replacement of an interest rate benchmark with an alternative benchmark rate. This amendment was adopted effective March 1, 2021 and resulted in no material adjustments.

4 New accounting standards and amendments issued but not yet adopted

In January 2020, the International Accounting Standards Board (“IASB”) issued *Classification of Liabilities as Current or Non-current (Amendments to IAS 1)* providing a more general approach to the classification of liabilities under IAS 1 based on the contractual arrangements in place at the reporting date. The amendments in *Classification of Liabilities as Current or Non-current (Amendments to IAS 1)* affect only the presentation of liabilities in the statements of financial position, not the amount or timing of recognition of

any asset, liability income or expenses, or the information that entities disclose about those items. In July 2020, the IASB published *Classification of Liabilities as Current or Non-current – Deferral of Effective Date (Amendment to IAS 1)* deferring the effective date of the January 2020 amendments to IAS 1 by one year. The amendments to IAS 1 are effective for annual reporting periods beginning on or after January 1, 2023 with earlier adoption permitted. The Company is currently evaluating the impact of these amendments on its financial statements.

5 Estimates

The preparation of interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these unaudited condensed interim consolidated financial statements, the significant judgements made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the annual consolidated financial statements for the year ended February 28, 2021.

However, the occurrence of the novel coronavirus ("COVID-19") pandemic has caused disruptions in the Company's global operations which have materially adversely affected its business and financial results. The economic slowdown triggered by the global pandemic has translated in a lower sales volume and subsequently depressed results for the Company while net order bookings have showed positive trends for the fiscal year ended February 28, 2021. The Company has implemented proactive measures to protect its global workforce and mitigate the numerous effects of the pandemic, but given the ongoing dynamic nature of circumstances surrounding COVID-19, it is not possible to reliably estimate the length, severity and long term impact the global pandemic may have on the Company's results, conditions and cash-flows.

During the three-month period ended August 31, 2021, the company has applied for wage subsidies which provided a reduction of salaries of \$543 (August 31, 2020 – \$2,278) in Cost of sales and \$450 (August 31, 2020 – \$1,869) in Administration costs. During the six-month period ended August 31, 2021, the company has applied for wage subsidies which provided a reduction of salaries of \$1,121 (August 31, 2020 – \$4,173) in Cost of sales and \$889 (August 31, 2020 – \$3,434) in Administration costs.

6 Seasonality

The Company's sales are not subject to seasonality. Quarterly sales can vary based on the timing of revenue recognition on large project orders.

7 Inventories

(thousands)	As at	
	August 31, 2021	February 28, 2021
Raw materials	41,134	40,404
Work in process and finished parts	144,883	118,553
Finished goods	54,208	45,204
	240,225	204,161

As a result of variations in the ageing of its inventories, the Company recognized a net additional inventory provision for the three-month period ended August 31, 2021 of \$1,975 (August 31, 2020 - \$ 2,266), including

reversals of \$718 (August 31, 2020 - \$1,152). The Company recognized a net additional inventory provision for the six-month period ended August 31, 2021 of \$3,992 (August 31, 2020 – \$2,798), including reversals of \$1,420 (August 31, 2020 - \$2,539).

8 Long-term debt

	As at	
	August 31, 2021 \$	February 28, 2021 \$
(thousands)		
Revolving credit facility	28,380	22,132
Canadian subsidiary		
Secured bank loan (\$CAD 22,500; February 28, 2021 - \$CAD 15,000)	17,605	11,581
French subsidiaries		
Unsecured bank loan (€2,295; February 28, 2021 - €5,547)	2,710	6,723
Italian subsidiary		
Unsecured bank loan (€2,968; February 28, 2021 - €3,000)	3,504	3,636
Unsecured state bank loan (€805; February 28, 2021 - €920)	950	1,115
Korean structured entity		
Secured bank loan (KW 6,357,780; February 28, 2021 – KW 7,064,400)	5,485	6,266
Other	6,599	6,638
	65,233	58,091
Less: current portion	8,711	9,902
	56,522	48,189

As at August 31, 2021, the Company had drawn down \$28,380 (February 28, 2021 – \$22,132) on the revolving credit facility and had \$4,538 (February 28, 2021 – \$5,436) in the form of outstanding letters of credit and letters of guarantee on a total \$57,364 (February 28, 2021 – \$55,518) borrowing availability. Furthermore, as at August 31, 2021, the Company was in compliance with its covenant.

During the three-month period ended August 31, 2021, the Company's Canadian subsidiary borrowed \$5,889 in the form of a secured mortgage loan bearing monthly interest payments of 3.80%, with principal payments beginning in October 2021 and repayable over 20 years.

9 Contingent liabilities

Two of the Company's U.S. subsidiaries have been named as defendants in a number of asbestos-related legal proceedings pertaining to products they formerly sold. Management believes it has a strong defence, and the subsidiaries have previously been dismissed from a number of similar cases. During the three-month period ended August 31, 2021, legal and related costs for these matters amounted to \$2,454 (August 31, 2020 – \$3,171). During the six-month period ended August 31, 2021, legal and related costs for these matters amounted to \$6,647 (August 31, 2020 – \$5,217).

10 Fair value of financial instruments

The fair value hierarchy has the following levels:

- Level 1 – quoted market prices in active markets for identical assets or liabilities;
- Level 2 – inputs other than quoted market prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and
- Level 3 – unobservable inputs such as inputs for the asset or liability that are not based on observable market data. The level in the fair value hierarchy within which the fair value measurement is categorized in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety.

The fair value of financial assets and financial liabilities on the condensed interim consolidated statements of financial position are as follows:

As at August 31, 2021				
(thousands)	Total \$	Level 1 \$	Level 2 \$	Level 3 \$
Financial position classification and nature				
Assets				
Derivative assets	74	-	74	-
Liabilities				
Derivative liabilities	9	-	9	-

As at February 28, 2021				
(thousands)	Total \$	Level 1 \$	Level 2 \$	Level 3 \$
Financial position classification and nature				
Assets				
Derivative assets	196	-	196	-
Liabilities				
Derivative liabilities	303	-	303	-

Fair value measurements of the Company's derivative assets and liabilities are classified under Level 2 because such measurements are determined using published market prices or estimates based on observable inputs such as interest rates, yield curves, and spot and future exchange rates. The carrying value of the Company's financial instruments is considered to approximate fair value, unless otherwise indicated.

11 Segment reporting

The Company reflects its results under a single reportable operating segment. The geographic distribution of its sales is as follows:

Six-month period ended August 31, 2021							
(thousands)	Canada \$	United States \$	France \$	Italy \$	Other \$	Consolidation adjustment \$	Consolidated \$
Sales							
Customers -							
Domestic	9,020	41,767	19,914	130	11,369	-	82,200

A world leader in industrial valve manufacturing supplying to:

- Fossil, nuclear, and cogeneration power
- Oil and gas
- Refining and petrochemicals
- Chemicals
- Pulp and paper
- Subsea
- LNG and cryogenics
- Marine
- Mining
- HVAC
- Water and wastewater
